## Introduction

Background. Montague semantics is the approach to the semantics of natural language introduced by Richard Montague in the 1970s. He described the aim of his enterprise as follows: The basic aim of semantics is to characterize the notion of a true sentence (under a given interpretation) and of entailment (Montague 1970c, 223 fn).

# File Type PDF 1

## Introduction

This chapter provides an overview and an assessment of central topics in interlanguage pragmatics (ILP). The chapter begins by defining the pragmatics for ILP, followed by a selective account of the main concepts covered in the field, such as pragmatic competence, the distinction between pragmalinguistics and sociopragmatics,
