meters. A blood glucose meter is a small electronic device that enables you to monitor your blood glucose levels (blood sugar levels) at home by placing a drop of blood on a reactive strip and then inserting the strip into the device.

How To Calibrate A Glucose Meter | DiabetesTalk.Net

A glucose meter, also known as a glucose monitor or a glucometer, plays a key role in managing diabetes. It can tell you at a glance what your blood sugar is in the moment—important information that should guide your food choices and how much you eat, your activity level, and, if you take insulin, your next dose.
