Amazon.com: Introduction to Logic (0001292024828): Copi ...
I am extremely impressed with Copi's "Introduction to Logic". It is easy to read, very well written, and expertly explained. It's also well organized with exercises following each section, so you can easily master one concept at a time. Copi's writing is so clear and thorough, he makes this sometimes opaque subject quite accessible and understandable.

Introduction to Logic: Copi, Irving M.; Cohen, Carl ...
One of the best textbooks, Copi and Cohen don't miss a thing. It is very difficult though since they use a lot of symbols and formulas for logical structures. Logic is similar to learning a new language whether Spanish or Coding, it takes a lot of practice, something that the authors provide at the end of each chapter.
