### Ford - New Engines For Sale

In the 1950s, Ford introduced a three-tier approach to engines, with small, mid-sized, and larger engines aimed at different markets. All of Ford's mainstream V8 engines were replaced by the overhead cam Modular family in the 1990s and the company introduced a new large architecture, the Boss family, for 2010.

### List of Ford engines - Wikipedia

Ford introduced the first Power Stroke late 1994, setting the benchmark for light-duty diesel truck engines. As before, the new engine was a collaboration between Ford and Navistar (formerly International). Although displacement stayed the same, the Power Stroke diesel engine was completely different from the IDITS.
