The 1KZ also has some sort of flow sensor in the intake stream which in my opinion doesn't really do much. These 1KZ engines are also OB1 so I'm not sure you can even read individual components like you have. This is why I think you have a 1KD engine. A pic of your engine bay could confirm which engine you have.

Hi all, 2000 KZN185 Hilux Surf here with the 1KZ-TE engine. I had a problem with an occasional check engine light flashing on for a second or so, but it made no difference to driveability or performance. Doing the diagnostic port pin jumper, the check engine light would give code 12 (12 = No RPM signal during cranking).
